

Extensive Disclaimer

All content, articles, and product information provided on this website are intended solely for informational and educational purposes. The products offered are strictly for **in vitro** research use only. **In vitro** (Latin: 'in glass') refers to procedures performed outside of a living organism, such as laboratory or bench research applications.

These products are not classified as medicines, drugs, or dietary supplements. They have not been evaluated, tested, or approved by the U.S. Food and Drug Administration (FDA) or any other regulatory authority for the diagnosis, treatment, cure, or prevention of any disease, ailment, or medical condition.

Under no circumstances should these products be administered to humans or animals. Bodily introduction of any form—including but not limited to injection, ingestion, inhalation, or topical application—is strictly prohibited by law and may be dangerous.

By purchasing and using these products, you agree to use them solely for lawful laboratory research purposes and acknowledge that the responsibility for safe handling, storage, and disposal rests entirely with you, the purchaser.

The website owner and its affiliates disclaim all liability for any misuse, harm, or consequences arising from the improper handling or application of these products.

If you do not agree to these terms or do not have the appropriate training to handle research chemicals safely, you are advised not to purchase or use these products.
